Tisztelettel a Rendezőség

R.S.V.P. Szept. 15, 1982

As an aftermath of the 1956 Revolution in Hungary, many left their homeland in search of the fulfillment of their aspirations. Among them a group of more than 200 forest engineering students and 31 faculty and staff members of the University of Sopron came to British Columbia in January, 1957, with the help and encouragement of the Canadian Government and the University of British Columbia. Some changed to different fields but 141 students did graduate in forestry between 1958 and 1961. Since then an annual Homecoming Ball has become a tradition to gather the Alumni from faraway places to reminisce and to renew friendships. This year's reunion celebrates the 25th anniversary of the group's arrival in Canada.
